ignorance in action.—Goethe.

Communists Do Not Want Jobless — Insurance

Now, I am of the opinion that there are some in this group visiting Washington today who are sincere and honest but the leaders of this movement are not interested in the welfare of the living men and women.

Those who have manipulated this movement in Washington at this meeting do not want unemployment insurance. That is the last thing on earth they want. They do not want anything that will help working men and women. They would not want unemployment insurance if they thought it might help.

Overthrow of the Government
they thrive on misery, distress and fear. They could not get anyone to join them unless men and women were hungry. They endeavor to mobilize discontent and distress in their effort to overthrow the Government of the United States. That is one of their chief purposes and those who make this group are only dupes in their efforts.

Leaders Seek Revolution
The leaders, Foster, Benjamin and others, are leading this thing and are the tools in their hands in attacking the Government.

another demonstration would be
held here in February, 1932.

U. S. DEPARTMENT DESTROYING JOBS

Speed-up Policy

Washington, Dec. 12.—"At a time in the whole world is in economic cutbacks because of lack of jobs, First Assistant Postmaster General Coleman advocates the situation within the Civil Service by trying to institute the economies to get the jobs scarcer," says Thomas F. Flaherty, secretary-treasurer of the National Federation of Office Clerks, in an editorial in the *Post*. The *Post* editorializing an order Coleman's to spread the work day to 10 hours within ten, which deprives substitution of work opportunities by rearranging the hours and speed-up, still faster work, reaching al-

to be geared to a rapid pace," Flaherty inquired, "Mr. Coleman has brought dress and want into many homes. He moved backward into late night as many veteran clerks who are fully entitled to better treatment, and has taken away from many subordinates an opportunity to earn a living. Is this in the sacred name of money?"

Violates Job Plan of President's Committee

to bring official condemnation to the

destroying policy of Coleman, the editorial quotes the following paragraphs from the remedies for unemployment recommended by the Committee on Employment Plans and Suggestions of the President's Organization on Employment Relief:

Editor Flaherty concludes with the words that Mr. Coleman is not apolo-

He says:

It would appear that Mr. Coleman's method of having the regular employees do their usual routine tasks—or reliably perform them—in order to be able for substitutes' work during the current hour is in sharp conflict with judgment of the President's Council.

How in common sense can the President expect the general public or private employers to take his unemployment remedies seriously when his postal administrators are flaunting them so blatantly? More things than charity will begin at home. It is dis-

...ultimately that the Government's
...est civil establishment, the Postal
...vice, should set such a bad example."

BALTIMORE P. O. CLERKS PROTEST DISMISSAL ORDERS

Baltimore, Md., Dec. 12.—A committee

menting the substitute clerks or Baltimore Post Office protested to President Hoover against the order of the assistant postmaster of Baltimore discontinuing the services of a number of substitute clerks. The order was issued, the assistant postmaster said, in conformity with instructions from the Post Office Department at Washington to discontinue clerical and labor auxiliary services throughout the service wherever it was possible to do so."

most of us are married men," the speaker said, "with families to support. Some of us are buying homes. For all of us this means the loss of property or savings that we may have, and a burden of debt from which we will not be free for years to come. Some of us are unable to borrow, may have to appeal for aid to charitable institutions or take

places in a bread line. We think you agree that this is a shameful way a government treats its em-
es."
